

ANS CEILING RESTORATION

Ceiling & Wall Cleaning
(303) 514-2666

THE SIMPLE, SAFE, AND COST EFFECTIVE WAY TO DEEP CLEAN WALLS AND CEILINGS

Ceilings and Walls Need Cleaning
Airborne dirt, grease, smoke, nicotine and bacteria form a film that reaches from the surface deep into the pores of your tile.

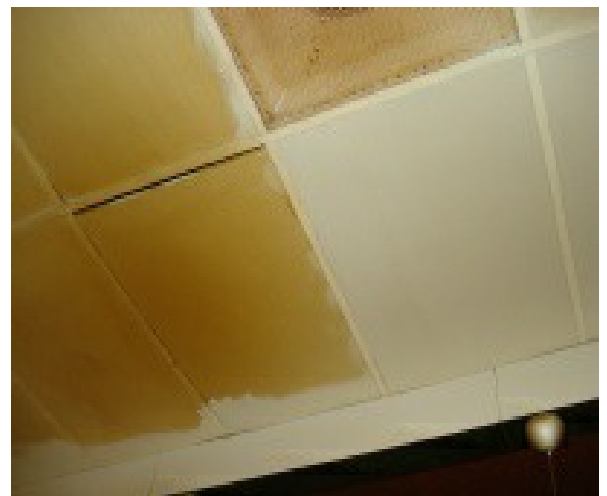

What are the Benefits of Cleaning versus Painting or Replacement?

- Cleaning your ceiling can be done for about 20% of the cost of replacement
- Retention of fire retardant and acoustic properties
- Tiles are cleaned, and tile odors are removed
- Costs less than painting of tiles by approximately 50%
- Crews work at night or during non businesses hours
- There are no fumes or odors from the cleaning process itself
- Painting is messy and costs about twice as much as cleaning
- Sanitizes your Ceilings and Walls

Deep Cleans/Sanitizes

Our unique formula absorbs deep into the pores where its emulsifiers, surfactants and disinfectants break down the dirt film into micro-dust particles. These invisible particles then evaporate into the atmosphere.

**Amazing Results, Most Work
Completed in 1 Night, Absolutely
The Lowest Cost Solution!**
